Summary

This document describes the set-up of NETT on line forums, in terms of main features and goals.

Introduction

Scope of this document

Scope of this document is to support the set-up of the NETT on line forums and the discussions moderations activities.

Objectives of NETT Forums

The main objectives of the NETT Forums should be:

- Support the generation of discussions among teachers on NETT project topics
- Support the generation of discussions among teachers and entrepreneurs on entrepreneurship skills
- Support the generation of discussions among teachers and students on entrepreneurship disciplines
- Promote NETT project events and results and disseminate NETT project content
- Promote and diffuse events, papers and publications on entrepreneurship
- Promote European initiatives, actions, events and projects on entrepreneurship

NETT on line forums

The NETT on line forums are set-up respecting international and local languages and culture. The main structure is based on two separate areas: an **international area**, in English language for general discussions and a **local area** with separate communities and forums for each country involved in the NETT project.

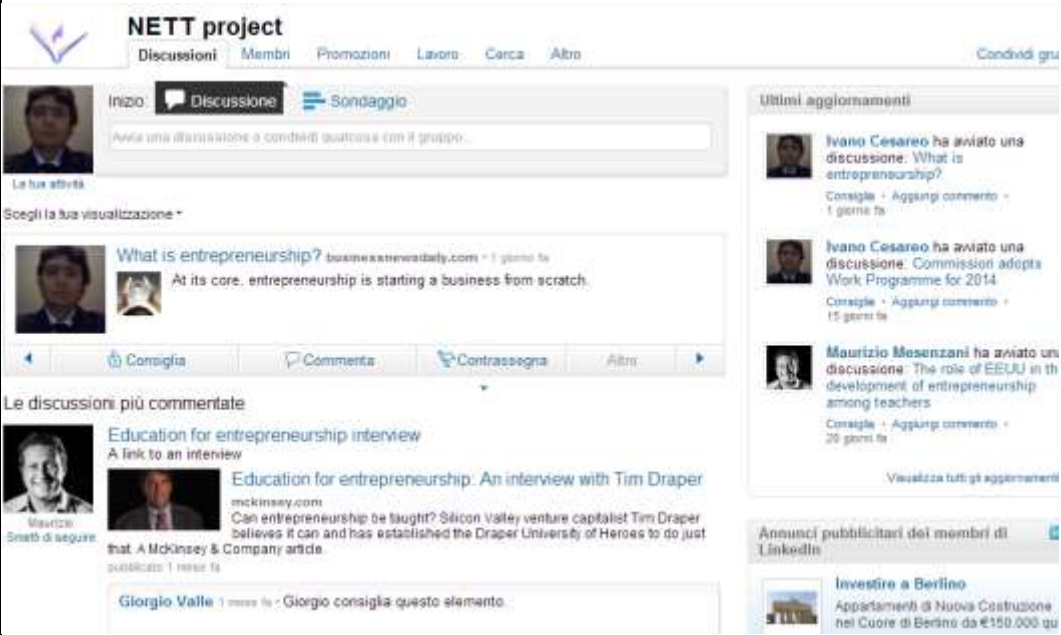

NETT Project web site forum

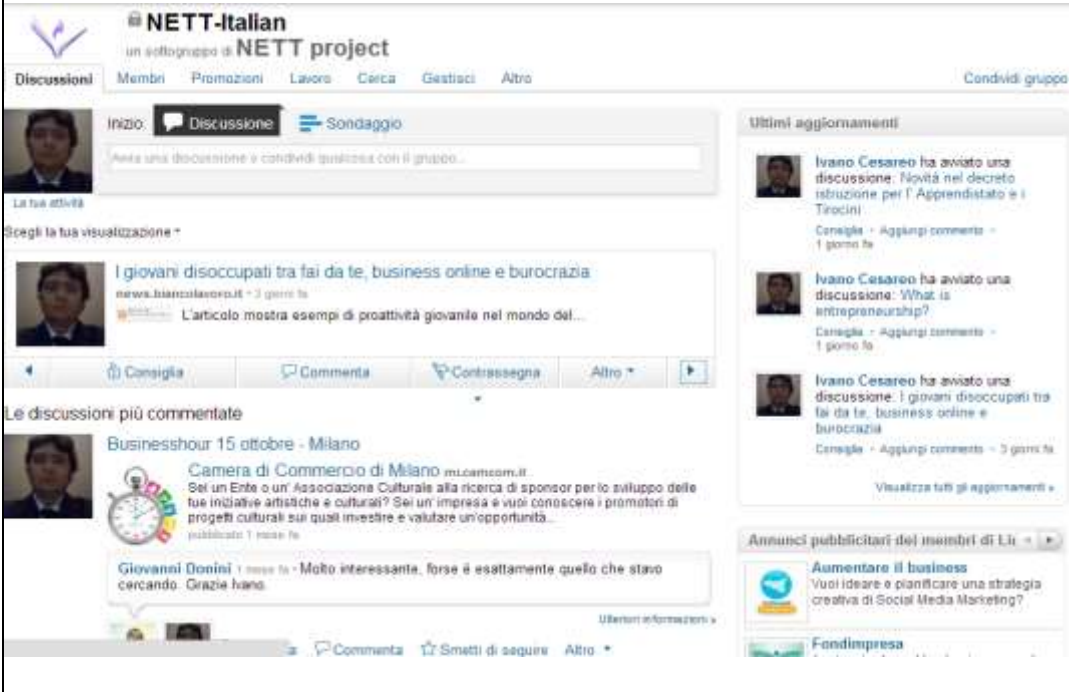

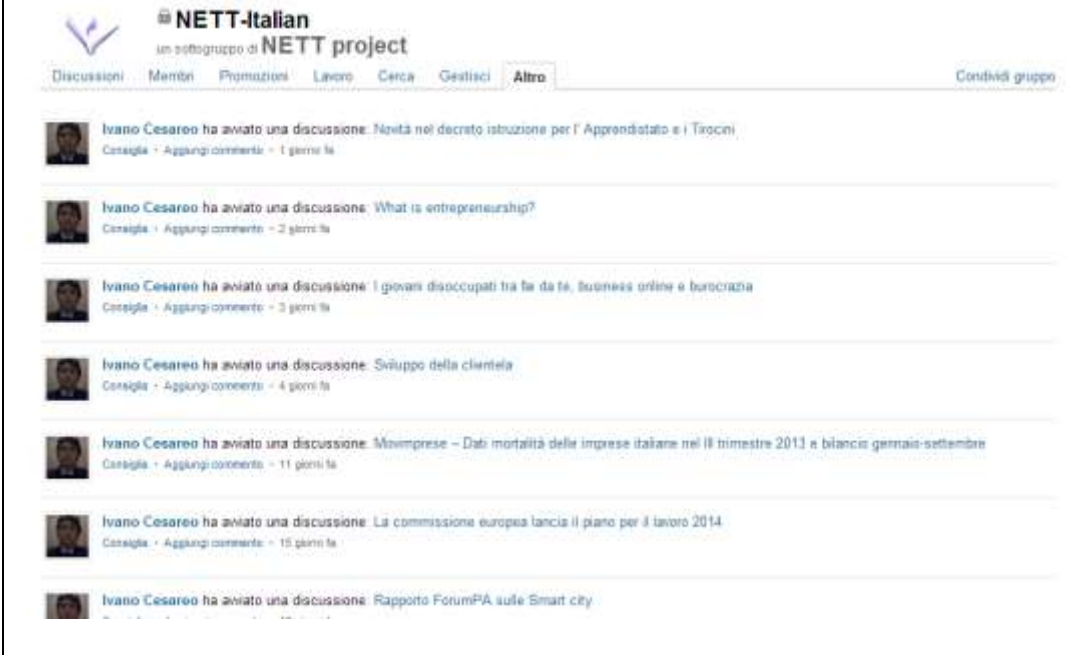

<p>NETT Website Forums</p>	<p>The international forum of NETT website is designed to permit the generation of discussions on NETT project topics and to permit direct links with the NETT platform. Currently there is only an indicative post in the international forum. Each country involved in the project has its own forum. As an example we present here the “Italian forum”. The “Italian forum”, accessible from the link “Italian Community”, links to LinkedIn NETT – Italian Group. This is the real channel of social discussion and dissemination. In this way the dissemination activities are under control since they are spread out with the use of consistent dissemination channels that do not overlap with each other. Discussion threads in these forum need to be moderated eventually by an online project member acting as a tutor. This environment represents the “NETT institutional discussion forum”, users must be registered, recognized and selected. Posts can be removed if not related to NETT project activities or contents.</p>
	

The screenshot displays the NETT website interface. At the top left is the logo, which consists of a stylized open book with a flame rising from it. To the right of the logo, the text "NETT" is prominently displayed in a large, bold, blue font, with the full name "Networked Entrepreneurship Training of Teachers" underneath in a smaller, grey font. Below the header is a horizontal navigation bar with five blue buttons containing the text: "HOME", "PARTNERS", "PUBLICATIONS", "RELATED LINKS", "COMMUNITIES", and "SUPPORTING ORGANISATIONS". Underneath the navigation bar, the breadcrumb "Home » Discussioni della comunità italiana" is visible. The main heading of the page is "Discussioni della comunità italiana". To the right of this heading are three small icons: a globe, an envelope, and a person. Below the heading, there is a line of text: "Segui gli aggiornamenti e le discussioni sull'educazione all'imprenditorialità del sottogruppo LinkedIn [Nett-Italian](#)". At the bottom right of this section is a button labeled "NETT-Italian LinkedIn".

NETT Linkedin Groups

<p>Linkedin Forum</p>	
	<p>Linkedin groups/forums are designed as the main open channels for people interested in the NETT project and entrepreneurship in order to reach our main target group as teachers.</p> <p>On a daily basis these forum are presenting facts, papers, videos, events and speeches on issues related NETT project contents.</p> <p>Similarly to the NETT website, Linkedin forum are organized into two different areas: the international NETT group and local groups for countries involved in the NETT project.</p> <p>As an example we present here the Linkedin Italian Group.</p>
